Mr. Carlos Ramirez,

Thank you for a wonderful performance put forth by your band, The Latin Explosion on Cinco de Mayo. I was skeptical our community of prominent white collar engineers was going to enjoy your festive Latino/South America music. Not only did they love the blend of American and Latino songs we were all pleased at the versatility of your current cover band music, from country to pop. I am still getting questions on how to reach you for local family events.

You made our night a success, thank you.
